

A Few Tips for making your Child's First Haircut a Great Experience!

(most of the time it works and other times not so much!)

1. Before your child actually needs a haircut it is a great idea to spray his/her hair with a spray bottle and comb their hair, encourage your child to use them on you, make a game out of it. Let them see that it is fun and not scary.
2. If you think that getting a haircut is going to be difficult for your little one, we invite you to visit the salon and just hang out, play with our toys and to see the other children having their haircut. If you allow some playtime, your child will think of our salon as a fun place to go!
3. Make sure the appointment is for a time of day that your child is usually in a good mood. If your child is cranky at the appointment time we do not mind if you have to reschedule your appointment rather than let your child have a bad experience.
4. If possible try not to come on Saturday because it is such a busy day and that may be very distracting to your child especially if there is a child in the salon that doesn't enjoy having their haircut!
5. If your child has long or curly hair please make sure it is free of tangles before you come to the salon.
6. Let the hair stylist take the lead, stay close to your child but give the stylist some space, to work. We may ask you to hold your child's head at times to make sure we get the haircut even.
7. Bring an extra shirt just in case your child doesn't want to wear a cape.

Many people ask when is the best time for a first haircut? The answer is whenever you feel like it needs cutting. If it is getting in babies eyes or the fly aways look like wings on the side of babies head it's time!
